Mining Exploration Decision of No Significant Impact

BOISE COUNTY – The U.S. Forest Service recently announced their draft decision for the CuMo Exploration Project, finding that there would be no significant impact in the Environmental Assessment of the proposed mineral test drilling located 14 miles north of Idaho City. The area is reported to have the largest deposits of a critical mineral, molybdenum, in the world. The proposed explorations detail the construction of nearly nine miles of temporary roads and 122 drill pads over the 2,917-acre project area. The roads and pads would be scheduled for removal in the two years after the completion of the drill samples. This decision by the Forest Service does not include approval of any full-scale, open pit mining plans. This would involve an entirely different process and new analysis by the company.

Several environmental groups have banded together to raise further concerns about the project, including the contamination of Boise's drinking water supply and irrigation water. They indicated that the mining

exploration would be at the headwaters of the Boise River and within the Boise River watershed. Cynthia Wallasz, Executive Director of Golden Eagle Audubon Society, pointed out, “This proposed project is a direct threat to wildlife, including sensitive species like the great grey owl, American goshawk, and wolverine. We strongly request the Forest Service thoroughly consider the potential watershed-wide impacts to birds, other wildlife, and plants along with the water quality they depend upon.” John Robison with the Idaho Conservation League said, “We are disappointed that, in spite of all these concerns, the Forest Service's draft decision doesn't make any significant changes to this controversial project.”

The CuMo Project representatives, recently renamed as the Idaho Copper Corporation, have relayed that they are no longer a Canadian-based company, but rather based in Idaho. They consult with experts in mining and “adhere to Best Management Practices on public lands and practices vigi-

lant stewardship of all natural resources.” In the past, they have attended events in Boise County, offering handouts, possible future employment, and discussion. Idaho Copper Corporation (IDCU) environmental policy states that they are committed to: “Conducting all exploration and development activities, present and future, in a manner that ensures a minimal impact on the environment. Each and every decision made by the development team is focused on designing an environmentally sound and socially responsible project.” The American CuMo Mining Corporation acquired many of the privately owned mining claims in 2004 and has completed exploratory drilling on public and private lands since that time. In 2012, CuMoCo was allowed to drill 137 holes and construct 10.2 miles of temporary roads, adhering to the rules set by the U.S. Forest Service. North of Idaho City, there is an estimated 6 billion tons of molybdenum oxide, copper, silver, tungsten, and rhenium worth around \$70 billion.

The Thompson Creek Mine is one of the largest molybdenum mines in the U.S. and is located in the Salmon-Challis National Forest. This open pit concept is being considered further down the line for this mineral deposit located north of Idaho City. Photo by Eileen Capson, courtesy of the Idaho Conservation League in 2018.

A Heartfelt Commitment to Our Community: The Struggles and Hope in EMS Care Amid Change

By Mari Adams

EAST BOISE COUNTY -- In the quiet moments between calls, when the ambulance is still and the sirens are silent, I often find myself reflecting on what it truly means to serve this community. There is a bond that runs deep. This place is more than just where I work; it is where my heart and

soul reside. It is a connection that goes beyond familiarity—this place is part of me, and every call I answer as an EMS provider feels personal. Every street and every face I encounter holds a story that I am privileged to be a part of, and it is this connection that drives me to provide the best emergency medical services possible.

I have had the honor of serving this community in times of need. Whether it is the calm reassurance to an anxious parent or the urgent response to a critical situation, being there with the ambulance has been more than just a job—it is a calling. Every time those sirens wail, it is a reminder of the trust the community places in us and

Members of East Boise County Ambulance District have been holding public meetings throughout the district to help the community understand the dire need that exists for rural emergency services. This meeting was held on Tuesday, Sept. 24, in Osprey subdivision. Photo by Eileen Capson

BOISE COUNTY COMMISSIONERS

Transcribed by Eileen Capson

September 17, 2024

Present: Commissioners Clay Tucker, Lindy Lindstrom, and Bob Callahan

Pledge of Allegiance

CONSTITUENT INPUT: None

MINUTES: A motion was said to approve the minutes from 9/10/2024. The motion carried.

GENERATORS: Two generators and their cost for county buildings were discussed. Additional bids will be obtained.

MOTION: A motion was made to transfer up to \$1,500 for a computer for the juvenile justice office.

AGRICULTURAL: Prosecutor Alex Sosa addressed the new Agricultural Protection Area Act that came out of the recent legislative session. He said there's a board and labeling on the map that will be done by January 1, 2025. If landowners want this agricultural exemption, they will need to submit an application. Sosa said that there is nothing they need to do in addition, if they already have an exemption. He explained that the big difference is that the "landowner has more protective rights," but it also binds the landowner to agricultural use of that land. There was some question regarding who will accept the applications, and it was decided that the assessor's office will receive them.

ATLANTA HIGHWAY DISTRICT: The current agreement was reviewed. Commissioner Callahan recognized that there has been quite a bit of traffic on Arrowrock Road and added, "It would be nice to see if we could get some help with that road." The board decided to duplicate the past agreement and plans to address it at a future date.

SOFTWARE PURCHASE: There was software needed for the prosecutor's office and sheriff's deputies. Commissioner Lindstrom motioned to approve the software request for \$27,850. The motion carried.

CONTRACTS AND AGREEMENTS: Three budget amendments were discussed by Clerk Mary Prisco. Lindstrom motioned to approve Resolution 2024-42, and the motion carried [East Boise County Ambulance building HVAC]. Clerk Prisco said they were over budget for juror's fees, with trials upcoming, and she recommended increasing the fund by \$10,000. Commis-

sioner Lindstrom motioned to approve Boise County Resolution 2024-43. The motion carried. Clerk Prisco explained the last resolution was to amend the ICAA fund program, which is significantly overbudget "in their truck maintenance and groomer equipment account." Lindstrom motioned to approve Resolution 2024-44 and the motion was approved.

L-1 FORM: Clerk Mary Prisco spoke about the taxing districts and their levies for the state tax commission. Values were assigned according to the Assessor's assessments and operating values for the taxing districts. Commissioner Lindstrom motioned to approve the L-1 Form 2024 Tax District Levy certification. The motion carried.

COMPASS DISCUSSION: A letter was discussed and has been drafted by the prosecutor. The letter states that the county has the desire to join COMPASS [which would help with grant projects]. An assets management plan was discussed by Commissioner Callahan, a 25-year plan, including roads and road department equipment.

LIQUOR LICENSE APPLICATION: Lindstrom motioned to approve the liquor license applicant, and the motion carried.

DEMAND WARRANT: The GEM Plan insurance annual fee was discussed, which Clerk Prisco reported was established during the Affordable Care Act and based on the average number of members.

Chairman Tucker calculated that with 131 people, it was \$3 per a person. Lindstrom motioned to approve this demand warrant for the GEM Plan in the amount of \$393. The motion carried.

EXECUTIVE SESSION: Clerk Prisco said she had a personnel issue to discuss. Chairman Tucker motioned to enter into executive session to discuss a personnel issue. [Time 9:55am to 10:34am] Lindstrom motioned to pay out Road and Bridge comp time, down to 80 hours, estimated at \$35,690. All were in favor and the motion carried.

FUTURE AGENDAS: The board discussed additional items to be added and made plans to meet on the following Thursday [9/26/2024], not Tuesday, for their regular meeting.

ROBIE CREEK FIRE PROTECTION DISTRICT COMMISSIONER INTERVIEWS: An executive session was called to conduct these interviews. [1:19pm to 3:17pm] Coming out of executive session, Commissioner Tucker said, "No action required. I believe next week we will put this back on the agenda for deliberations and decision."

Adjourned at 3:17pm.

GARDEN VALLEY -- Volunteerism and private funding have leveled the playing field, fueling the momentum to complete a high school baseball field for the Garden Valley community. Truly a labor of love, the dream of seeing our local high school seniors play ball in front of their families, *on their own home field*, has propelled much of the work to be completed in a relatively short period of time. Volunteers have been working between nine to twelve hours a day, pushing themselves to get the field ready for winter.

Frank Trabbie has been a leading contributor, spending hours upon hours prepping the field, trenching, and laying irrigation piping. He would like to recognize Terrace Lakes Resort and their greens specialist for lending his expertise. Trabbie envisions a topnotch ballfield where high school baseball players could start holding games at in the spring of 2025.

Trabbie explained that the school just did not have the funds to continue with this project, so he formed a non-profit called "Garden Valley Baseball Corporation," EIN 99-5036239. He's looking for any additional help and support for the baseball field located on the Garden Valley School District grounds. Trabbie encouraged people to call, should they have any additional questions, 208-809-0261.

East Boise County Ambulance District Needs Support of Voters

~ continued from pg. 1

every time I feel worn down, I remember those faces. The injured, the scared, the vulnerable—they stay with me. Even when I am tired, even when it feels impossible to keep going, their need pulls me back. It is their calls, their trust, which drives me forward, reminding me why I can never give up on this mission.

We pour our hearts into this job because we know how vital it is. We know what is at stake when there is no one available to answer that emergency call. When someone's life hangs in the balance, every second counts—and without the proper staffing, we are left helpless. The feeling of knowing that the ambulance might sit idle, unable to respond, is devastating. I have never known a deeper frustration than watching our community struggle for something as fundamental as emergency care.

Every day, I desperately try to fill each shift. The reality is grim—the age of volunteers is fading, and it is a struggle that is being felt everywhere. The once-reliable pool of dedicated community members willing to step in has dwindled, leaving us scrambling to keep the ambulance staffed. We simply do not have the budget to hire

enough people to cover the shifts at this time, and with every empty slot, the risk grows. The weight of uncertainty is heavy; knowing that we might not have the people to respond when someone needs us most is a fear I face daily. This is not just a local problem—it is a nationwide crisis. Without the support, we are stretched far too thin to guarantee the coverage our community depends on.

Lately, the weight of this responsibility has felt heavier. Our ambulance district is facing unprecedented challenges. Budgets are tighter, resources are stretched, and the demands on our services continue to grow. As the landscape of healthcare evolves, so too does our ability to meet the needs of those we serve. And now, with the looming dissolution and the birth of a new district teetering on the edge, the fate of all hangs in the precarious grip of the November vote, in the hands of the community.

While dissolving EBCAD (East Boise County Ambulance District) and forming the new district EBCED (East Boise County EMS District) is necessary, it has introduced a new set of challenges. On the surface, it is easy to see it as a disruption—change to the system we

have known for so long. But in reality, dissolution and formation are about adapting to the growth and shifts within our community. It is about ensuring that everyone, no matter where they live, has access to the care they need. It is about preparing for the future.

If this initiative on the November ballot does not pass, we will lose more than just more funding—we will lose the ability to protect the people we care for. The resources we need to have the ambulance in service at all times will not be there. This is not just a logistical issue; it is a crisis of care. We are fighting to maintain the level of service that the people of this community deserve, but we cannot do it alone. It is heartbreaking to think that we might not be able to be there for someone in their moment of greatest need—not because we do not want to, but because the resources simply are not there.

Every day, we fight to maintain the quality of service that our community relies on. We stretch every dollar, we push through every challenge, and we do everything in our power to make sure that when you call for help, we are there. But the truth is, we are struggling. And

this struggle is not just ours—it is a struggle for the entire community. This community is worth fighting for, and so is the EMS system that supports it.

As we navigate these changes, my commitment to this community remains as strong as ever. My heart and soul are here, in every life saved, in every moment of care provided. And though the road ahead may be difficult, I know that with the support of this community, we can continue to provide the lifesaving services that are so desperately needed.

In times of uncertainty, one thing remains clear: this community is my home, and I will always be here, ready to serve, no matter what challenges lie ahead. We need support. I need your support. We need this vote to pass. Because without it, the

Mari Adams

unthinkable becomes reality—there will be times when we simply cannot be there. And that thought breaks my heart.

The hope I hold onto is that the people of this community will see this struggle for what it is: not just a vote for a new district, but a vote to save lives.

CENTERVILLE -- On September 18th, 2024, Boise County began work on the hazardous Centerville bridge. The following week, the creek was diverted and a bypass was installed. The old bridge has been partially removed in preparation for the new bridge. When approaching, motorists should take care and slow down, then follow the bypass cones to get around safely. Please be courteous to other drivers and take turns, one at a time. The new bridge that Boise County's Road and Bridge Department is installing promises to be wider and safer for all.

**Idaho Constitutional Amendment
HJR 5**

Legislative Council's Statement of Meaning, Purpose, and Result to Be Accomplished

This proposed constitutional amendment provides that only Idaho residents who are citizens of the United States are eligible to vote in elections in the State of Idaho and that noncitizens are not eligible to vote in any election in the State of Idaho. Currently, Section 2, Article VI of the Constitution of the State of Idaho provides: "[e]very male or female citizen of the United States, eighteen years old, who has resided in this

state, and in the county where he or she offers to vote for the period provided by law, if registered as provided by law, is a qualified elector." This provision does not expressly prohibit noncitizens from voting. The proposed amendment adds language to provide that only United States citizens may vote in elections in the State of Idaho.

Statements FOR the Proposed Amendment

1. This constitutional amendment is needed to clarify that United States citizenship is a requirement for eligibility to vote in Idaho elections because the current language does not expressly prohibit noncitizens from voting. The proposed amendment will ensure that individuals who are not citizens of the United States do not vote in any government election in the State of Idaho.

2. The amendment is also needed to clarify that the right to vote shall not be granted in the future to individuals who are not citizens of the United States. Noncitizens have been granted the right to vote in some local elections across the United States. Legislation to expand voting to noncitizens has been considered in other states and cities in the United States.

3. Allowing noncitizens to vote in Idaho elections could lead to concerns regarding election integrity and allow for foreign influence in Idaho elections. The proposed constitutional amendment will protect the State of Idaho from such issues.

Statements AGAINST the Proposed Amendment

1. The proposed constitutional amendment is not needed because United States citizenship is currently required for participation in Idaho elections. Under current law, the Idaho Secretary of State requires citizenship and proof of residency with respect to individuals who register to vote, and it is a felony for an individual to provide false information on an Idaho voter registration form. Additionally, federal statute provides that it is a crime for a non-citizen to vote in any federal election.

2. Election fraud involving voting or attempts to vote by noncitizens is not a significant issue in Idaho. Adding additional language to the Idaho Constitution in an effort to solve a problem that is not occurring could inadvertently create new problems or add an additional barrier to registering to vote by new citizens and state residents.

3. The proposed amendment undermines local control of local elections. The amendment would foreclose any opportunity in the future for the Idaho Legislature or local governments in Idaho to authorize noncitizens to vote in certain elections that might directly affect their interests.

Amendment Text

SECTION 2. QUALIFICATIONS OF ELECTORS. Every male or female citizen of the United States, eighteen years old, who has resided in this state, and in the county where he or she offers to vote for the period provided by law, if registered as provided by law, is a qualified elector. No person who is not a citizen of the United States

shall be a qualified elector in any election held within the state of Idaho.

The Garden Valley District Library hosted a 4-H presentation by Lisa Willey on the benefits of joining their program. The kids learned about all the different programs available, including experiences with livestock (goats, rabbits, etc.), photography, leather tooling, crocheting, bead work, and more. Willey said they are always appreciative of individuals that are willing to be leaders in these different programs.

Middlefork Fire Camp Complex

GARDEN VALLEY -- What a difference a few days make! The cleansing rain cleared up the valley of smoke and provided the opportunity to photograph the view of the Middlefork Fire Camp Complex. It is amazing to see this "mini" contained city which supplies, houses, feeds and takes care of hundreds of firefighters and several spike camps. They have been a blessing to us all this summer. The complex burned 61,484 acres [Sept. 22nd], has 553 personnel, and is 85% completed.
